

7. OLD BUSINESS (continued)

- C. FY 2010-11 CIP/Repairs. Staff reported the repair of a broken outside drop sewer line on Scott St. was to be completed by Able Underground Construction within the next two weeks. The broken line was discovered during annual routine maintenance of the main line sewer system.
- D. Spring Clean Up Day 2011. Staff reported that all arrangements had been made with GreenWaste Recovery for the annual clean up day. Director Spies stated that he would be available to oversee operations on the event day. Director Yoder also stated that he would be present and available. Per the District's request, GWR revised the compost giveaway to allow for two bags per person, instead of one.
- E. FY 2011-12 Draft Budget. The Board discussed several of the budget items, including attending conferences and training (for both staff and Board). Because the full board was not present, this item will be discussed further at the next meeting.
